

What is the name of the street you live on?	Do you currently utilize or have you utilized Legacy Park?	What do you like most about Legacy Park?	What do you dislike about Legacy Park?	What elements are not included in Legacy Park that you would like in a neighborhood park?
Minerva Drive	Yes	Tennis Courts		Entry control for tennis courts so entry is restricted to community residents and their guests.
Chatelain Cir	Yes	Only park with a decent basketball court	Distance from my house	
Mayflower Terrace	Yes	Shape/size and general prettiness.	Legacy Park Drive. People drive too fast on it. Have been nearly hit several times trying to cross it over to the park.	Dog run. More running paths.
Minerva Drive	Yes	Shaded areas, different playgrounds for different ages.	Not enough swings	More benches, open areas, fountain in water
Olympia	Yes	Choice of playgrounds, big rocks to climb on, nature without bears	Can get muddy with all shade	See saw Sandbox with community toys Big Swing with chest belt Energy generating something (stationary bikes, for example) Something active for adults to do while watching kids play
Magellan Square	Yes	Wooded, winding trails. Large natural area.	Nothing	Open field area.
Minerva Drive	Yes	The trails and the trees, and park aspects for our family. It's multipurpose.	All of the cars parked on the side of the road.	Cherry trees, more park benches and picnic benches
Christopher Thomas Lane	Yes			
Red Admiral	Yes	Central location in the neighborhood. Easy to get to by car or bike, nice to ride bikes there and then go up to Town Center for ice cream.	Have to cross BRR from Legacy Park Drive (by Elementary school)	water fountain, bathroom
Minerva	No			
Morning Walk Dr	Yes	Trails, maintained landscaping	tennis court	More sun/flowers/shrubs/landscaping
Tradewind Drive	Yes	Playgrounds, tennis courts, basketball courts, running trails	only 2 tennis courts	boating/kayaking, covered picnic area, more tennis courts

What is the name of the street you live on?	Do you currently utilize or have you utilized Legacy Park?	What do you like most about Legacy Park?	What do you dislike about Legacy Park?	What elements are not included in Legacy Park that you would like in a neighborhood park?
Red Admiral Place	Yes	proximity to home	Needs creative lighting at night so it is seen as a welcoming location.	
Fallen Hills Dr.	Yes	Nice shaded park.	There is nothing I don't like about legacy park.	None
Epperson	Yes	I like that it breaks the monotony of the rows and rows of houses. I like lighted tennis courts, though we need many more of them!!! Like to have small pond in the middle where you can watch the turtles laying on the sun	It is getting too beaten up due to the population overgrowth. There are no areas left for the wild nature to grow free (except for the small area around the pond), trees need to be restored on a more aggressive schedule.	Pollination stations, for example, Willowsford Farms is participating in "Bringing Back the Monarch" program, why Brambleton is not doing it yet? In the parks that have ponds, that are larger in size, maybe put a small boathouse that can be used for small row boats? or at least, have small platforms, where you can sit and enjoy the view
Minerva Drive	Yes	The trees and most definitely the walking trails	Need better play ground equipment more like Creighton Elementary school and Legacy Elementary school has and some appropriate younger age equipment	Open areas for kickball and family soccer games and need more picnic areas and a bathroom would be helpful It is so nice to get out on sunny days to go to park where the kids can run and play and tables for lunch and a bathroom
Minerva Drive	Yes	Old trees and play areas	that most of the users are not Brambleton residents	None
Tradewind drive	Yes	Play structures, shade		water fountain similar to the one at One Loudoun, more picnic benches
Stratford Landing	Yes	The trees and the naturalness of it.	I've used it but I don't use it regularly.	Dog park
Autumn Sky Ct	No	It seems like a private park for those living directly next to it.	Lack of dog park. Confined geographically, not very natural.	Dog park.
Minerva Dr	Yes	Tennis courts	Greenary and Basketball and tenisecourt	
Minerva	Yes	Nature	How muddy it is.	Fountain in the middle of the pond. Trails through the woods connecting the sections of section 4
Minerva Dr	Yes	Variety of activities and paths	swampy consistent conditions	

What is the name of the street you live on?	Do you currently utilize or have you utilized Legacy Park?	What do you like most about Legacy Park?	What do you dislike about Legacy Park?	What elements are not included in Legacy Park that you would like in a neighborhood park?
Minerva Drive	Yes	Trees and green space	Cars and traffic	MORE trees and green space and less cars and traffic
Virginia Rose Pl	No	The trails	noisy	quiet natural retreat
Virginia Rose Place	Yes	Trees and waking trails	Parking and traffic	
Minerva drive	Yes		Shortage of tennis courts. There is always waiting.	
Minerva Drive	Yes	Tennis Court and the bike/walk trail	Traffic	Flood lights for the tennis courts
Minerva	No			
Minerva drive	No			
Minerva dr	Yes	Trees and tennis courts	no water elements	water elements
Minerva dr	Yes	Its nice and shady with good space for kids	Nothing much	Nothing
Minerva Drive	Yes	Walking trail Tennis Courts Greenary	None	
Benfold Square	Yes	Playground	Parking/ No dog park	Dog park
Fallen Hills	Yes	The scenery, walking paths, and nice trees / foliage.	The tennis courts seem out of place for such a pretty area.	I think it has everything it needs.
Muirwood Court	Yes	Trees, shaded areas, walking paths, playgrounds		Bocce Courts, pavillion
Minerva Dr	Yes	Playground amenities blended into natural tree setting	Too small for the biggest park in neighborhood	Nothing
Minerva Drive	Yes	Green space and trees	Car traffic!	Less car traffic and more green space and trees.
Minerva	No			
Minerva	No	Easy accessibility, near to town center.	Parallel parking on the streets.	
Virginia Rose Pl	Yes	running trail	nothing	nature only
Fallen Hills Drive	Yes	The shade.	The bugs (because of the trees providing the shade).	
Minerva dr	Yes	Young and older kid activities, tennis courts, basket bal courts	Muddy	Open space for playing
Minerva	Yes	trees	the mud	nature trails

What is the name of the street you live on?	Do you currently utilize or have you utilized Legacy Park?	What do you like most about Legacy Park?	What do you dislike about Legacy Park?	What elements are not included in Legacy Park that you would like in a neighborhood park?
Fallen Hills	Yes	Older shade trees and open space	Tennis courts and traffic	I like natural parks with enhanced landscaping and trees for shade.
Fallen hills	Yes	Old trees, that it is not in anyone's backyard	Extra traffic and congestion it brings to the streets, lights on the courts, people using the amenities that do not live here so it's crowded for residents	Open fields, keep it as green as possible; something without concrete courts, space for kids just to run and have spontaneous play, trees, natural shade. I think any new formal structures should be put in areas of Brambleton that are not developed yet
Stratford Landing Drive	Yes	Openness Respect of nature (e.g. mature trees)	Access: no pedestrian tunnel under Belmont Ridge by Legacy Elementary	Picnic Tables (and requisite waste management) Water fountain
Virginia Rose Place	Yes	Foremost, I like that Legacy Park is not in my backyard. Secondly, I like how the park was incorporated into the existing natural areas.	Nothing. It is in a great location. I do not want anything similar to Legacy Park, other than the natural elements, in the open area behind my house.	
Virginia Rose Place	Yes	Playgrounds	Nothing	Nothing
Virginia Rose Place			The traffic on both sides of the park. We used to live on fanshaw saw, and hated all of the through traffic on that side of the neighborhood. I don't want to see anything close to that in our circle.	
minerva	Yes	Close to TownCenter	street parking, not child safe zone.	
Minerva Drive	Yes	I like that there are tall mature trees to block the sun.	There are not enough swings.	A rock climbing wall.
Minerva drive	No	Trees and shade	Inconvenient to get to from a lot of the neighborhood	NA
Virginia Rose Place	Yes	Lots of play space options; plenty of parking; walking trail; SHADE!!	Nothing - our family loves the whole park!	A tot lot - something for smaller toddlers
Fallen Hills Drive	No	It's location	Brings traffic	N/A

What is the name of the street you live on?	Do you currently utilize or have you utilized Legacy Park?	What do you like most about Legacy Park?	What do you dislike about Legacy Park?	What elements are not included in Legacy Park that you would like in a neighborhood park?
Franklin Benjamin Terrace	Yes	Central location, adjacent to Town Center, variety of play areas for various kid ages, lots of tree cover and shade.	Would like more picnic tables	Restrooms
Twinleaf Drive	Yes	The playground, the trail, the wooded areas.	Playground equipment is too spread out.	Bike racks, covered pavilion(s), Frisbee golf course, children's garden play area, dedicated parking lot
Minerva drive	Yes	Away from being directly in someone backyard and that you have trees and facilities	That most people using it are not Beambleton residents. Residents from near by neighborhoods	None
Virginia Rose Pl	Yes	Shaded area. Variety of things to for kids to do over a range of ages.	More swings would be nice.	Taller slide.
Benfold	Yes	Nothing	The trees	Sports fields
Stratford Landing drive	Yes	Big and multiple play areas- Shade for summer time play. Multiple levels of play areas	Distance from our home	
Minerva drive	Yes			
Callalily Way	Yes	Size, Picnic Tables	too far from my home	More of multi-use grassy field area for soccer or kick-ball
Connie Marie ter	Yes	Swings tunnels climbing structure	Nothing for teens	Things for teens
Minerva drive	Yes	the playground equipment and walking paths.	it gets very muddy when it rains.	more places to sit, such as benches and picnic tables.
Virginia Rose Place	Yes	Trees	Muddy	Natural climbing/exploring structures for children who are older...gearing a natural park to late elementary/middle school age kids.
Minerva Drive	Yes	My kids like the tire swings; I like the shade cover and how peaceful it seems.	It's dark at night.	water fountain / splash pad

What is the name of the street you live on?	Do you currently utilize or have you utilized Legacy Park?	What do you like most about Legacy Park?	What do you dislike about Legacy Park?	What elements are not included in Legacy Park that you would like in a neighborhood park?
Minerva	Yes	Usability, layout, scenery, multiple aspects (and uses), reminds of Boston and Olmsted designs etc.	Neighborhood stories that the end towards Belmont Ridge provides hiding spots for teens when they are doing things that need to be hidden.	
Angela Faye previously, now Stratford Landing	Yes	The open, natural feel. Love the old, mature trees that line the park as its a reminder of why we moved to Loudoun. Love that, aside from the tennis courts, the design was kept minimal and natural. Love the neighborhood camp out and the ability to have added open space since yards in Brambleton are not large. Waterfall is a nice touch if considered part of the park.	Not too much.	Depends. Would not change Legacy because it just fits the area but s dog park or a common fire pit/gathering space would be nice.
Minerva Driver	Yes	Playset and Tennis courts	Tennis court is not restricted to Brambleton residents	
Angel Wing Way	Yes	Trees, paths, ponds, nature, hidden sports courts that blend in well with natural surroundings	I would like a marked pedestrian crossing between the two sections (near tennis courts).	1) We need a dog park somewhere (out of site). 2) We also need a LARGE flat grassy space for pick-up games, flying kites, etc. 3) Ice skating area/covered pavilion for events.
Fallen Hills Drive	Yes	Ample open space, good amenities for the little kids, good landscaping, a break from the typical suburban landscape (an island of open space in a sea of houses).	All the tree stumps - if you cut down a dead tree, take the extra step to remove the stumps. It just looks bad and you can't use that area.	None that I can think of.

What is the name of the street you live on?	Do you currently utilize or have you utilized Legacy Park?	What do you like most about Legacy Park?	What do you dislike about Legacy Park?	What elements are not included in Legacy Park that you would like in a neighborhood park?
Minerva Drive	Yes	Lots of wooded areas, multiple playsets. Nicely maintained trails. Playground equipment that is different than other places.		
Tradewind Drive	Yes	It provides a place for a lot of different activities for people's different interests.	There are a lot of places where the landscaping is just dirt and then mud when it rains. I realize it is shaded in many places but given how nicely the other common areas are kept throughout the Brambleton community it is not as nice.	I can't think of any.
Jessica Farm Terrace	Yes	playground		
Minerva Dr	Yes	Wooded areas, size of the park, waterfall landscapes	Tennis courts, lack of open fields	Designated parking area, open fields with grass that is well maintained, putting green or golf-inspired area, splashpad area for young kids
Ingersoll Way	Yes	Playground area for kids, lots of trees, walkways within the tree areas and on the perimeter, and the lighted tennis courts. Benches and picnic tables. Long stretches for forested areas without development; just the pathway of trees and grass.	Prefer not to have a basketball court within the park	Free spraygrounds and play fountains that pack in a splash of fun for the pint-sized crowd. Similar to Lake Anne Plaza in Reston and One Loudoun in Ashburn. Large rocks for climbing and bouldering. An Open regularly mowed grassy area for kids to play catch, throw a frisbee, kick a ball with their parents--a non-competitive feel- just a play for fun area. An semi-quiet area to layout a blanket and have a picnic or read a book.
Hawkbill Sq.	Yes	Openness, green spaces	Lack of a dog park	The park needs a dog park
Minerva Drive	Yes	Open areas	Big crowds	More flowers
Windflower	Yes	The courts and large number of playgrounds for all ages.	Distance and ease of access from my home.	Basketball and volleyball courts. Shaded areas and playgrounds with picnic tables.

What is the name of the street you live on?	Do you currently utilize or have you utilized Legacy Park?	What do you like most about Legacy Park?	What do you dislike about Legacy Park?	What elements are not included in Legacy Park that you would like in a neighborhood park?
Fallen hills dr	No	Green area and trees and sitting area, kids play area	Too busy	Kids safety is not at all there. Both sides of park are so congested. We would like more open space for kids to play
Explorer drive	Yes	The shade and variety of activities and play areas	Limited swings for children, and limited picnic tables. Would be nice to have more tables away from play areas.	It might be fun to have a marked nature trail with information on local wildlife, or perhaps a scavenger hunt for the children along a trail. Anything interactive for families to experience nature would be wonderful.
Muirwood CT	No	Adult, Sports options	Distance	Additional seating
Willow Bend Drive	Yes	Tire Swing and several play structures shade, benches		Shade, gazebo
Fallen Hills Dr	Yes	Open Space, Pond, Green Fields, Walking trails, benches	Tennis Courts, lights, man made structures, and the traffic and congestion it brings to that area for local residents.	More green natural space for people to use.
Minerva	Yes	The preserved existing large trees. The natural feel of the park (like you're in the woods).		Less man made features.
Hickox drive	Yes	Swings and shade	No bike racks	
Highcrest Circle	Yes	Trees and playground.	Poor drainage in areas - ripe for mosquitoes. Lack of upkeep by HOA. Not enough tennis courts.	Pollinator garden A couple of playground items that are handicap accessible.
stratford landing dr	No	Kids play area, trees, camping space	location	
Minerva between Virginia Rose and Muirwood	No			
morning walk drive	Yes	tennis courts, and walking trails	nothing	increased area for younger kids (tot lots)

What is the name of the street you live on?	Do you currently utilize or have you utilized Legacy Park?	What do you like most about Legacy Park?	What do you dislike about Legacy Park?	What elements are not included in Legacy Park that you would like in a neighborhood park?
Windflower	Yes	SHADE! Space. Options. Parking.	Roads on every side. Over crowding. Distance from home - having to cross Belmont Ridge Rd.	Seating areas: some with tables, some without; pavilion or similar structure; water fountain; bike rack; rock climbing structure; play areas based on age (2-5 & 5+); message board; little library; lighting; help point / emergency signaling device. I'd love to see this be the location of the community garden. Ornamental trees providing shade and color would make this a great addition to the area. A natural play area with a tree house concept would be cool.
Callalily Way	Yes	tire swing, ample shade, large enough space that you don't have to fight others for play areas	Too close to the road and too many people speeding by. Lots of big tree stumps. Only one tire swing.	
Lois Lane	Yes	tennis courts	not enough tennis courts for a first-class planned community that Brambleton touts to be	definitely need more tennis courts. On nice days, courts are almost always in use and many are turned away because no courts are available.
Twin Falls Terrace	Yes	trees, trails, open spaces, and playgrounds	too crowded	more trails and open spaces
Mayflower Ter	Yes			
Stratford Landing Drive				

Park 4 Questionnaire Feedback

Minerva Drive	Pollinator habitats		
Chatelain Cir			
Mayflower Terrace	Trees. Lots of trees.		
Minerva Drive	Open areas.		We do not want a dog park here. It makes more sense to have a dog park near condos or townhomes, where there are small yards.
Olympia	No ticks Variety of labeled plants/flowers	Clemyontri	
Magellan Square	Meadow, pond. Want to preserve the ecosystem, and have teaching opportunities for my kids. Also enjoy the natural beauty.	Freedom park in Charlotte, nc. Winding trails around a pond, innovative play areas for kids.	
Minerva Drive	I'd love to see more flowers, picnic benches and porch benches (sporadic along the trail), manicured areas, beautification of the water areas.	Washington Tidal Basin	I'm concerned about District 4 and the amount of potential traffic behind Minerva and Fallen Hills. Today there is only one access point on Virginia Rose and the cul-de-sac is not equipped to handle the traffic. There needs to be another access point to the trail and pond behind Minerva. It would be nice to have green areas and passive park areas behind Minerva... perhaps cherry trees or grape vines... Brambleton can produce it's own wine. :) Please no dog parks, tennis courts (etc.), lights, etc. behind Minerva and Fallen Hills.
Christopher Thomas Lane	nature trails, access to shorelines		
Red Admiral			
Minerva	Natural flower area for bees		Park should compliment current families as well as single people activities/sports and plan to support the future active lifestyle complex

Park 4 Questionnaire Feedback

What is the name of the street you live on?	What passive/natural elements would you like to see in the neighborhood park and why?	Name a park that you have been to that reflects your vision for a neighborhood park. What elements of this park stand out to you?	Additional Comments:
Morning Walk Dr	All of the above. Why? Peaceful, Quiet	Legacy Park without courts/concrete - Perfect!	Not fair or appropriate to install larger scale fixtures (courts, concrete, dog park) in areas where home owners were sold lots on basis of golf course or open area. Incidentally "open area" spirit does not translate to !that! means we can do what we want...!
Tradewind Drive	childrens garden	burke lake	
Red Admiral Place		Hammond Japanese Stroll Garden in North Salem NY. It is a calming and beautiful park. Lots of natural visual elements.	
Fallen Hills Dr.			
Epperson	All of them, we need to provide more space to share with the wild habitat. Would like to see less of a mowed lawns unless it serve a recreational purpose	Shenandoah, Great Falls. Those parks have areas left untouched so the wild animals, birds, insects, etc. can coexist with humans	Brambelton should aim to become more nature supporting community. With all the population that is placed in our area, we are losing wild habitat on a scary scale. Create a program that supports conservancy efforts of Loudoun County! I would be interested in volunteering for this cause

Minerva Drive	love the flowers the bridges and the water with the turtles that come out and sun themselves		
Minerva Drive	reforested open spaces. We already have enough being built limiting the amount of open space.	Central Park New York	
Tradewind drive			

Park 4 Questionnaire Feedback

What is the name of the street you live on?	What passive/natural elements would you like to see in the neighborhood park and why?	Name a park that you have been to that reflects your vision for a neighborhood park. What elements of this park stand out to you?	Additional Comments:
Stratford Landing	I'd like to see reforested areas and pollinator habitats. I think lots of trees have been taken down and with all of the houses in Brambleton, it would just be nice to have more nature along the trails - both because lots of people walk and bike down them, and for kids' education. It would be great to have things like a butterfly garden, and if possible, maybe frogs and turtles in a pond and more pond grass around the pond already there - again, whatever would be most natural for the area.	In Florida, there was a park we visited that had a boardwalk through trees and trees of land. Again, I just liked the naturalness of it. Separately, I really like the Willowsford Dog Park - I like that it's a bigger park for dogs to really run. And yet another park as a kid had a great playground that was made of wood, had these kinds of tunnels within it (the tunnels were square and you could see through the wood), tires to climb on, etc. We loved that park because it gave us plenty to climb on and to hide in. I also had a treehouse as a kid - it was not in a tree, but it had stairs you used to enter from underneath through a door, had windows with screens, and a real roof with shingles - something like this for a playground would be amazing.	I recommend adding back a community garden and adding a kids' garden. For a large playground, as many trees for shade would be appreciated. And anything solar would be best - it would be great to use solar energy for anything we can in Brambleton. On the dog park, I'm concerned that the idea is to have many small ones, but because no one wants one in their backyard, we'll end up with one small one that is in no way big enough to be used by Brambleton resident dogs. Instead, I would highly recommend one very large dog park like the one in Willowsford - but with some agility things for dogs. For the dog park, the double gate is key so no dogs get out, along with a dog water fountain to keep everyone hydrated. Thank you for taking our comments.

Park 4 Questionnaire Feedback

What is the name of the street you live on?	What passive/natural elements would you like to see in the neighborhood park and why?	Name a park that you have been to that reflects your vision for a neighborhood park. What elements of this park stand out to you?	Additional Comments:
Autumn Sky Ct	Any natural elements would be great. Butterfly gardens, bird habitats, and maybe a play fountain too!		
Minerva Dr	meadows,Fountain		We d't want Dog part behind our houses.
Minerva	Fountain in the middle of the pond.		Definitely NO dog parks or playgrounds in people's backyards. Keep the area around the pond natural. There is no parking, and residents shouldn't have to go cut through people's yards to get to amenities. Utilize the trailhead next to Belmont Ridge Road for a dog park if necessary as there are no houses in that area.
Minerva Dr	fountains in ponds to keep standing water at bay. esp with the fear of mosquitos and zika virus.	benches, passive elements	Strongly against any development behind the houses on Minerva Dr that end at Virginia Rose. These lots were bought with premiums associated to them that did not include obtrusive elements in their yards. There isnt parking and foot traffic through yards would be inevitable.
Minerva Drive	Meadows, pollinator habitats, and reforested areas all sound fantastic!		The Dog Park location seems insanely and poorly placed. Love the idea of utilizing the space next to the Callalily Park Tot-Lot.
Virginia Rose Pl	meadows, butterfly garden		Putting a bark park there is totally not advisable as the people who bought in that area paid a premium for golf course facing lots. There is no adequate parking for people to utilize the dog park. Please put the dog park in new section so people buying around it are not taken by

Park 4 Questionnaire Feedback

What is the name of the street you live on?	What passive/natural elements would you like to see in the neighborhood park and why?	Name a park that you have been to that reflects your vision for a neighborhood park. What elements of this park stand out to you?	Additional Comments:
Virginia Rose Place	Trees, flowers, Cherry Blossom type trees, gardens water related elements	Jefferson Memorial Area / Tidal Basin	There are two major concerns with Park 4 updates. #1: Parking at cul-de-sac at end of Virginia Rose. We had the same discussion with Brambelton Mngt about traffic and parking when they proposed the walking trail there two years ago. Ideally, we could assume that traffic to this park would only come from the residents that live close to it...from what we saw with the trail creation, that is not practically what happened. We are experiencing an heavy amount of traffic and increase in cars parking at the culdesac to go fishing. A lot of us paid a lot premium to be at a culdesac to be away from the traffic..that slowly is eroding, and I do not favor any effort to increase car traffic to the culdesac. #2 No to any Active Recreation in Park4. I like the idea of upgrading Park 4, but only with Passive Recreation efforts. Part of the charm of park 4 is the at appears that we live in the country (because of the open land). Put up some more trees, cherry blossom type trees, etc. Keep the beauty of it. ----- Additionally, thank you for the opportunity to discuss the plan for park4, including the information session that was held a few days ago with the community. This didn't happen with the walking trail development (of it it did, the word didn't
Minerva drive			Please do not build in any place that might be disconcerting to residents privacy.
Minerva Drive	More trees	Brambleton park	

Park 4 Questionnaire Feedback

What is the name of the street you live on?	What passive/natural elements would you like to see in the neighborhood park and why?	Name a park that you have been to that reflects your vision for a neighborhood park. What elements of this park stand out to you?	Additional Comments:
Minerva			I need to know when the next public meeting is on this planned park so I can attend to voice my vote against it. We have lived here for four years with no such knowledge of a park ever being put in our backyard. We live on a quiet, peaceful street. We purposefully choose the back of the neighborhood so we would not have the noise of such a thing as a dog park in our backyard. We do not want the increased traffic on our street or having to compete for street parking due to people wanting to use the dog park in our backyard. I don't want nor should I have to clean up after people walking through our yard as a cut through to this proposed dog park. I want to be able to walk barefoot in my own backyard without the worry of dog feces from those who don't care to
Minerva drive			
Minerva dr	reforested areas		
Minerva dr	Nothing much		Its better to leave the open areas as is naturally
Minerva Drive	This will add natural setting to the park	Scenic beauty, quiet settings	Please do not build any dog parks behind the houses. We bought this house for scenic beauty, serenity and natural settings. Dog parks will make our backyards very noisy make it miserable for the people living around those parks. Please construct the dog parks in undeveloped area away from the existing homes.
Benfold Square	butterfly gardens, berry patches, orchards, cherry trees		

Park 4 Questionnaire Feedback

What is the name of the street you live on?	What passive/natural elements would you like to see in the neighborhood park and why?	Name a park that you have been to that reflects your vision for a neighborhood park. What elements of this park stand out to you?	Additional Comments:
Fallen Hills	We would like to see more green areas. It makes the neighborhood look nice and well kept. While I appreciate the playground areas, we would prefer more foliage and greens.	I haven't been to many parks lately, but I appreciate the scenery, greens, and serenity of parks - not loud noisy ones.	We truly enjoy the greens and foliage - the well kept landscaping, etc. I am hoping there are not plans to tear down some of the nice areas to install courts or soccer fields, as I feel that would detract from the look of the neighborhood.
Muirwood Court	Reforest as much as possible to maintain the natural habitat. We'd love to see wildflowers on the berms behind Muirwood Court, Minerva Drive and Fallen Hills.		We love the idea of a butterfly garden behind Muirwood Court, and would love wildflowers. We do NOT want a dog park on the trail. This would cause the trail to be covered in dog poo, and would mean many more dogs back on the trail that is currently used by children/runners. The dog park needs to be in a location with parking accessible, and should go in to a new section of Brambleton where the owners know they are moving in near a dog park. A pavillion, picnic tables and bocce courts are great ideas for the area on Minerva by the small park that currently exists. Garden plots are also a great idea for that space.
Minerva Dr	Meadows	Tidal basin in dc	Limited to no parking in VA Rose cul da sec is biggest concern with what Bram might do in area in front of lake behind Minerva. Also not in favor of dog parks near path
Minerva Drive	Deforested areas		Please, please, please keep car traffic away from this neighborhood!!! It's already bad as it is with the school nearby! We enjoy the open green space as it is now. If you're going to add 'improvements', it would be great if it focused on keeping the green space and adding more trees. No dog parks or courts...more green space!
Minerva			

Park 4 Questionnaire Feedback

What is the name of the street you live on?	What passive/natural elements would you like to see in the neighborhood park and why?	Name a park that you have been to that reflects your vision for a neighborhood park. What elements of this park stand out to you?	Additional Comments:
Minerva	Meadows.		No dog park please or any construction behind the homes where no accessibility. This will lead trespassing between homes.
Virginia Rose Pl	meadows and trees would be nice.		Please nothing that will attract parking/traffic on our street. No basketball/tennis courts or playgrounds.
Fallen Hills Drive			The area at Minerva and Fallen Hills has been great for our family. We are concerned about developing more in this area, as we believe it will bring more traffic and parking issues, as well as lights and noise if certain courts and other items are added. We believe that additional amenities should be added to the yet undeveloped District 5.
Minerva dr	Open areas for play, natural shielding from roads and other out of boundary areas. Nature walk.		Not happy that this disruptive activity is being considered for an already established neighborhood where it was not outlined initially when the houses were bought. Many residents paid for premium lots on what was either to be a golf course, common open land that was not to be developed or changed. Now we are in a situation where use change is being considered as well as potential changes to traffic patterns in a built out established neighborhood. My view is that this park proposal should be targeted at new unfinished neighborhoods where there is full disclosure about building intent. I don't see anything wrong with open green fields at the end of fallen hills and natural meadow walks past Virginia rose.since the loudoun county road extension hasn't opened, provide access and parking off of it instead of focusing on Virginia rose access mods.
Minerva	fountain in the pond		no large man made structures near the pond
Fallen Hills	Reforested areas and pollinator habitats		I would like to see more open space and green habitats within brambleton.

Park 4 Questionnaire Feedback

What is the name of the street you live on?	What passive/natural elements would you like to see in the neighborhood park and why?	Name a park that you have been to that reflects your vision for a neighborhood park. What elements of this park stand out to you?	Additional Comments:
Fallen hills	Trees so there is more shade plantings, reforestation because there are so few areas in Brambleton that are safe areas for kids to run and play where a ball isn't going to run out into traffic. Or where kids can sled on a hill that doesn't end in the street.	Maymont, Richmond: Beautiful park to walk around, water feature. Benches to sit and talk, shade, peaceful	Put the large, lighted, concrete structure courts in a section on Brambleton that is not developed yet so people can decide what they want to live next to.
Stratford Landing Drive	All natural elements are welcome. The greatest amenity of the existing trail system is that the surrounding natural areas preserve a diverse habitat.	Legacy Park :-) It is well designed.	Let's not make our next park look like a large phallic symbol on google maps (or let's be creative and add to the existing 'art').

Park 4 Questionnaire Feedback

What is the name of the street you live on?	What passive/natural elements would you like to see in the neighborhood park and why?	Name a park that you have been to that reflects your vision for a neighborhood park. What elements of this park stand out to you?	Additional Comments:
Virginia Rose Place	I'm not sure at this time. I am; however, much more open to a natural, wild flower, water fountain type area than a playground and/or sports facility.		I am extremely concerned about the addition of any recreational area for which there is insufficient access to adequate parking. Parking from guests fishing in the nearby pond is already quite common in the Virginia Rose cul-de-sac, both on the weekend and throughout the week.
Virginia Rose Place	Any park by the pond should be natural and far from the Virginia rose entrance. We live at the end and do NOT want cars and teenage traffic visiting.		Please keep the end of VA rose natural. We do not want kids and random people parking and hanging out at the end of the street. We get enough of that already and with the pond and sewer pipe outlet we cannot afford to have kids lured to that area more than they are.
Virginia Rose Place			I don't want the park built. It will create traffic, and added street parked cars in our circle, at the end of Virginia Rose. We purchased this house to protect our kids from added traffic and this park will have a negative influence on our street.
minerva			- Please plan any structures(if planning) at least 100-150 feet away from property line to avoid disturbance. - Should plan a proper entrance(easy accessible), don't construct anything which may lead to street side parking and trespassing through property line.
Minerva Drive			Would love to see a full size basketball court.

Minerva drive	i want trees, but well manicured. I don't like overgrowth as it brings mice, snakes, etc.		Park must have accessible parking. Putting something a few hundred yards from parking will not get used.
Virginia Rose Place	The area in District 4 has a great undeveloped meadow already and I would love for it to stay that way. We see lots of wildlife and appreciate the open/empty nature of the setting. My preference is to keep District 4 the way it is, with perhaps an extra bench or two and maybe a water feature in the pond.	I am a huge fan of the minimalist parks - the natural habitats, open fields, flowers/trees.	We live near the District 4 area. It is my understanding the area for the possible Neighborhood Park is the open space that is accessible from the trail head in the Virginia Rose cul-de-sac. As it is now, several cars are parking in the cul-de-sac on a regular basis to access the pond for fishing. There is LITTLE parking space in the cul-de-sac. Every house on the cul-de-sac has young children that regularly play outside, on the sidewalks and in the cul-de-sac, so the extra cars present a hazard to those families and take away from the quiet nature that is expected on a cul-de-sac. Any additional development in the District 4 area would most likely increase the car traffic in the Virginia Rose cul-de-sac for families trying to access the proposed park (whatever it may be). We are very happy with the park options already in place and regularly use Legacy Park and the small playground at Minerva and Calilly Way.
Fallen Hills Drive	N/A	I don't have small kids so I really don't go to parks.

What is the name of the street you live on?	What passive/natural elements would you like to see in the neighborhood park and why?	Name a park that you have been to that reflects your vision for a neighborhood park. What elements of this park stand out to you?	Additional Comments:
Franklin Benjamin Terrace	Trees and natural areas, trails, picnic tables		<p>Thanks for the opportunity to comment. We offer the following comments - Legacy Park is unique because of its large space and central location in the community, adjacent to Town Center. It was planned to be a neighborhood park from the beginning and therefore adjacent parking was provided. The adjacent homeowners also knew the park would be there when they purchased their home. -We We agree in concept that neighborhood parks, as Brambleton has defined them, should be provided in all the Districts. However, we do not agree that a neighborhood park belongs in the space currently being planned in District 4. The open space in District 4 has limited to no adjacent parking and therefore we do not believe active recreation should be located here except for limited playgrounds for the adjacent neighbors. As an example we live adjacent to a basketball court and it regularly has a bunch of cars parked with people playing on the court - this works because there is a parking lot. -We We would really like to have plenty of trees and natural areas with benches and picnic tables to have quality family outdoor time. While we don't live in District 4, we regularly walk, ride, run along the trail and go to the playground with our kids and having a few more amenities would be great. -Overall Overall we strongly suggest paying special attention to the homeowners directly adjacent to the space, they are the most impacted.</p>
Twinleaf Drive	I like the existing flora.	Broadlands Nature Center. I like the existence of a parking lot, and the incorporation of nature and activity space.	Brambleton spends so much money building and maintaining lovely amenities and a wonderful sprawling trail network with which to access them by bicycle, and then doesn't install bike racks for those of us who do actually use the trail system to get to these amenities. Every pool, playground, and tot lot should have a bike rack or two. Every "destination" in Brambleton should have one.

Minerva drive	Open space.	Lincoln park in Chicago Illinois	We need to maintain our open space area. That's was one of the reasons we purchased in Brambleton
Virginia Rose Pl			Please do not build the park on north side of pond. Residents purchased homes in the Virginia Rose Pl cul-de-sac to be a part of this great neighborhood but also to be on the quieter edge of it. Placing a park here will lead to parking issues in the cul-de-sac and a large increase in people around potentially decreasing the value of our
Benfold	Grads	Central Park	
Stratford Landing drive	Forested/shade areas More bike paths	Legacy park Dinosaur park in ashburn	
Minerva drive			Forgot to add a comment about adding bike racks for The new parks!
Callalily Way			
Connie Marie ter			
Minerva drive	some rock gardens to keep the ticks away	not sure	
Virginia Rose Place	Restore trees that have been taken out.	Central Park Frisco Texas, it contains art sculptures, as well as rock and water features that older kids can explore. Similar to a small scale arboretum.	Please do not add parking lots or features that would need parking lots or lights, as these are established homes and the addition of parking lots/lights and large unnatural structures would be unfair to families who have invested in properties that assumed would connect to green space.

Minerva Drive	trees - shade	dinosaur park and clemenjontri parks are nice for families.	would suggest finding land that isn't already near existing homes to do larger parks because NIMBY. (I don't mean my backyard specifically, but that's going to be the feeling you run into with anyone already leaving here not informed of the plans before they purchased.)
Minerva	Some scenic aspects, but mostly usability like reforested (not densely) areas with things that kids can use. Rocks to sit on, paths through light forests etc.	Mt. Greenwood Park on the far south side of Chicago. It has a huge running track around it, and numerous ball fields within the track. One thing that would be nice would be a few ball fields for people to play softball, or little league etc. But just maybe one or two.	Thank you for looking to put a nice park in the community. Legacy Park and the side park a block or so away are two of our favorite things about Brambleton.

Angela Faye previously, now Stratford Landing	<p>All. It reminds me of why we moved to Loudoun in the first place. More nature, more focus on land preservation, more FRESH than areas closer to DC. It is the way of development but it is shame to see the beautiful farm fields slowly disappearing and it'd be nice to maintain as much of nature as possible. Especially given the reception areas that will be in the Hanson Park that will hopefully be accessible by trail from our neighborhood. See no need for more courts, etc. when those will all be nearby en masse.</p>	<p>Hard to pin point one. Love the pond area in Willowsford -- kept natural but with gathering spaces for the neighbors. Same with their trails. Kept natural but easily accessible. Great Falls would be another example. Natural but many places to gather with good company.</p>

Fallen Hills Drive	<p>used quietly - I guess what you're calling meadows and reforested areas. The problem with putting in a tennis court or similar is that only a small segment of the population uses it. Plus it invites others from outside our community. Open space can be used by everyone and reforested areas can entice birds and other animals etc. Also the reforested areas are nice because they are pleasant to be around. I like these amenities better than "action" amenities such as tennis or basketball courts. There are plenty of those around and at the schools - but open, green, natural space is limited and special. I guess what I'm saying is that I'd much prefer quiet / passive elements where people can walk and enjoy the outdoors rather than something that will introduce more traffic, require lights, and</p>	<p>Sorry, but other than Legacy I don't really have one. I like walking paths, and open & reforested areas.</p>	<p>Legacy Park is the central area with a little bit of everything for everyone. I think the future park should remain more a "nature park". The walking path is great, but the meadows and natural habitats are my favorite features. I think it would be better, both from a sustainable standpoint and monetarily, to avoid turning this park into a giant grass field that has to be mowed every 2 weeks from April to December.</p>

Minerva Drive	Fountain in a pond.		I'm excited for more park elements to be brought near the pond behind Va Rose (charrette 4). My only concern is that there is no street parking available if something large were to be built. The cul-de-sac on VA Rose is not appropriate parking and there are already too many drivers parking there to fish. Lots of kids are in the area. I'd love for the park to be more nature-oriented and quiet, with a fountain in the pond perhaps, or a gazebo.
Tradewind Drive		A small park behind loudoun one. Paths and natural areas. Leave the current areas as they are.	The fact that there is a Legacy Park at all is great. For those who dont live right next to it they can get there quickly and easily by car, bicycle or a longer walk. It serves all of the community well. Thosewho don't or haven't used the Park likely wont use a new one. One park the size and style of Legacy park is enough for this sized community. Leave the other open, natural spaces in the developed neighborhoods as they are. The provide another option to a developed park like Legacy Park. As the newer townhome and single family areas are developed incorporate new parks into those. The residents who willreside in the town house community south of the town center will easily be served by legacy park. The development west of Northstar should have a park close to them with their input. What I am saying leave everything as it is. Legacy park is fineforthe ccurrent residents of brambleton . Leave the natural areas as they are si that we have both options.

What is the name of the street you live on?	What passive/natural elements would you like to see in the neighborhood park and why?	Name a park that you have been to that reflects your vision for a neighborhood park. What elements of this park stand out to you?	Additional Comments:
Ingersoll Way	Open areas mixed in with forested cover areas, small pond with waterfall, bird nesting capabilities and bee habitats. Prefer not to have wooden bird houses constructed along walkways like they have in Brambleton. Currently, they are unsightly due to them being weather worn and look unnatural.	There is not just one park that comes to mind.	none right now
Hawkbill Sq.			Since Brambleton's dog park was taken away, there has been no replacement. There is not one dog park in all of Ashburn, and we need one desperately.
Minerva Drive	Meadows, bird feeders, cherry trees, reforested areas	Washington DC Tidal Basin	I'd love to see the area around the pond area more manicured
Windflower	Reforested areas.		
Fallen hills dr	Natural habitat		This road is already busy because of the school and we don't want t even busier with courts and flashy lights. This area has lot of young kids who need more play area

What is the name of the street you live on?	What passive/natural elements would you like to see in the neighborhood park and why?	Name a park that you have been to that reflects your vision for a neighborhood park. What elements of this park stand out to you?	Additional Comments:
Explorer drive	It is always great to keep forested areas, and to maintain them and replant where needed.		
Muirwood CT	Shaded areas		
Willow Bend Drive			
Fallen Hills Dr	more reforested areas. a butterfly garden. more plants and flowers. Bring back the trees!!	Meadowlark Gardens	I live next to Callalilly Park and I strongly oppose putting hard courts, including tennis and/or basketball courts, with lights, in this area. I'm also very concerned that courts will attract and be used by people who do not live in Brambleton. I support making the area more natural looking to include more trees and enhanced landscaping. The kids in this neighborhood currently use this field to play and I would hate to see this area removed/lost.
Minerva	All. Meadows, reforestation, open spaces.		We love the open and natural feel of the current space proposed for park 4. We would however like to see some degree of reforestation in some of the wider areas, while preserving some of the existing open spaces. The children love that they have an ability to play sports (baseball, football, frisbee etc) in some of the larger open areas. However some additional trees would help with erosion and restore the natural habitat. These open areas are only accessible from a few locations along Minerva dr without cutting through people's yards so we would like expected use and access taken into account. For example do not put a multi use court or playground in an open area which would force people to cut through others yard.
Hickox drive	Puddle area for kids Butterfly garden with shaded seats		Consider handicap accessible areas

Highcrest Circle	Pollinator garden. Bees and other pollinators are good for our plants. And could we please get away from the rock theme everywhere? Reforested areas - developer has taken down enough!	Look at some of the parks and trails in the Broadlands where they have kept mature tree growth and wetlands.	
stratford landing dr	yes	kids play activities	
Minerva between Virginia Rose and Muirwood	All of the above.	Ashburn Park on Partlow Road. The feature I like best are the trails that run through mature trees and wild nature.	I am feeling like a bait & switch is about to happen. We were told that the area that would have been the golf course site near the big pond would now be left in as natural state as possible. I was thrilled with that decision. I want to have natural habitat views behind my lot. I do not wish for there to be a formalized park. We get deer, rabbits, foxes, and other wildlife back there. We enjoy watching them. I do not wish for them to be driven away. To me the charm of my lot was the proximity to the little bubble of nature in the middle of a suburb. To turn it into something that's manicured and structured and sanitized destroys the charm and would be very disappointing.
